Category Between channels 1-150.

TABLE 4
TOTAL SMR PENDING APPLICATIONS AND GRANTED LICENSES
IN ALL CATEGORY BANDS (CHANNELS 1-600; 851-866 MHz)
AND PERCENT NEXTEL OWNED, OPERATED, MANAGED, OR UNDER CONTRACT
FOR SALE TO NEXTEL

This table lists licensees holding or applying for SMR operations (YX designation) between channels 1-600 (851-866 MHz). The list gives a total count of the number of YX channels each licensee holds. It also gives a grand total of all the YX licenses in this range.

This information was derived by constructing a query asking for all YX licenses. With the results of this query, a report was designed that grouped the information according to licensee and gave a sum of the number of YX licenses for each licensee, as well a total of all licenses in this radio service.

All licensees noted with an * are Nextel owned, operated, managed, or under contract for sale to Nextel. The information regarding Nextel ownership was obtained from SMR WON member operators in the markets studied.

The percentage of Nextel affiliated licenses and pending applications was determined by dividing their total into the total licenses in the table.

TABLE 4A: Columbia, SC
 TABLE 4B: Sunnyside, WA
 TABLE 4C: Covington, LA
 TABLE 4D: Washington, IL
 TABLE 4E: Kosciusko, MS
 TABLE 4F: Idaho Falls, ID
